JAYANTHINATHAN V

L1 IT Support Engineer | Desktop & System Support

jayanthinathan108@gmail.com | +91 9003584168 | Chennai, Tamil Nadu | linkedin.com/in/jayanthinathan-exp | jayanthinathan108.github.io

PROFESSIONAL SUMMARY

L1 IT Support Engineer with 1+ year of hands-on experience providing desktop and system support in a high-traffic enterprise environment (cinema industry). Skilled in Windows OS troubleshooting, Active Directory user management, POS system support, and remote assistance via industry-standard tools. Proven ability to minimize system downtime, resolve user issues efficiently, and coordinate vendor escalations across multi-site operations.

TECHNICAL SKILLS

IT Support & Systems: L1 Technical Support, Desktop & Laptop Troubleshooting, Windows 10/11 Installation & Configuration, Hardware Replacement (RAM, HDD/SSD, Peripherals), Remote & On-site Support, IT Asset Management

Networking: LAN / WAN, DNS, DHCP, Network Troubleshooting

Servers & Enterprise Tools: Active Directory (User & Group Management), TMS Server, IMS Communication, VISTA POS System, Outlook Configuration, Antivirus & Patch Management

Remote Support Tools: UltraViewer, VNC, ScreenConnect, AnyDesk, TeamViewer

Projection Systems: Digital Projection Systems

Operating Systems: Windows 10, Windows 11

PROFESSIONAL EXPERIENCE

Associate – IT Support (L1)

Cinépolis India | Chennai, Tamil Nadu *Feb 2025 – Present*

- Provide L1 IT support for desktops, laptops, POS systems, and enterprise applications across daily cinema operations serving high-traffic environments.
- Diagnose and resolve hardware, software, Windows OS, and basic network issues; consistently reduce system downtime and maintain business continuity.
- Install, configure, and maintain Windows 10/11 operating systems, Microsoft Office, Adobe applications, and antivirus/endpoint protection tools.
- Administer Active Directory by creating and managing user accounts, groups, and access permissions for multi-site enterprise users.
- Troubleshoot Microsoft Outlook issues including profile errors, PST corruption, email connectivity, and IMAP/POP configuration problems.
- Deliver remote IT support via UltraViewer, VNC, ScreenConnect, AnyDesk, and TeamViewer to resolve end-user issues efficiently without on-site visits.
- Perform hardware upgrades including RAM expansion and HDD/SSD replacements to improve system performance and longevity.
- Resolve dual-monitor, printer, and peripheral connectivity issues ensuring uninterrupted user productivity.
- Maintain accurate IT asset inventory and incident documentation in ticketing systems.
- Coordinate with external vendors for system installations, repairs, and escalation of complex technical issues beyond L1 scope.
- Execute regular system updates, patch management, and preventive maintenance schedules to improve performance and security posture.
- Support VISTA POS system operations and TMS/IMS server communications critical to cinema ticketing and management.
